

## Incubation Building Construction by BVB Alumni Association for BVB – CTIE (Centre for Technology & Innovation Entrepreneurship)

---

16.1.2015

Dear BVBians,

We are proud to inform you that the Dream of BVBians is coming true with the construction of “Incubation Centre Building” supported by BVB Alumni.

We are also proud to present here that BVB-CTIE has been recognized as **“Business Incubator” from the Ministry of Micro, Small and Medium Enterprises, Govt. of India.**

This dream which was initiated by our respected Principal Dr.Ashok S.Shettar during the Global alumni Meet in Bengaluru on the 14<sup>th</sup> July, 2014, is now in progress. The idea that BVBians do get an opportunity to serve locally by creating more industries in and around Hubli which took off by the College few years back, has now taken a leap towards making it more viable.

It is also a Unique Project taken by our Institute to increase the job potential in Tier 2 cities, by committing for the industrial development as a societal concern.

This idea has been well supported by BVB alumni during the Bengaluru Meet in July 2013. BVB College of Engineering & Technology, Hubli and BVB Alumni Association, Hubli have entered into an agreement to construct the Incubation Centre building.

Dr.C.N.R.Rao laid the foundation stone for the construction work in the month of February, 2014. The building work is now in progress and you can witness the same from few of the photos given here.

The completion of this building needs lot of financial support, and we are confident that our BVB Alumni will definitely support.

We are very much thankful to all those BVB alumni who have contributed till date and made the Project rolling on. Appreciation plaques have been given to alumni who have donated more than Rs.1.0 lakh and the sample is shown below.

We also request all other BVB alumni who have achieved excellence in their career, to take this opportunity to donate for this Project. Please contact the undersigned for any clarification of financial issues about the Project.

Please Donate as much as possible, to make this Dream come True for the Institute, which will certainly be viewed as a great contribution by the BVB Alumni Association.

Please visit these sites for:
