Mrs. Jyothi Pattanshetti,
Mr. Amte and
Mr. Ashok Shettar- Present Principal

- ⊕ Address by Dr BL Desai and Dr Ashok Shettar
- ⊕ Introduction by all Alumni
- ⊕ Discussions on what way Alumni can give back to institute?

BRIEF OF THE POINTS DISCUSSED ON 24th Morning in college .

DrAshok Shettar and Dr B L Desai

- Since the last 22 years, College has grown in terms of infrastructure, facilities, additional disciplines and no of students.
- College has now attained Autonomous status, affiliated to VTU,Belgaum. College, being autonomous body, is open to customize the syllabus to make it close to Industry requirements, by participation and interaction of Industry professionals with Syllabus committee of the college.
- College has been assessed having capability to become Deemed University, keeping regional progress in focus, this has not been opted.
- College requires interaction with Industry and participation by Industry to enable students get ready exposure for tomorrow.
- Alumni from Industry are invited to offer guidance to students with their experience in Industry on soft skills like Presentation, interactions in the industry field, the way communications happen, expectations of Industry and Industry-Institute participation in Projects and recruitments.

BVB 1988 batch E&C/EE reunion on 24th Dec, 2010 at BVB College of Engineering and Technology, Hubli

Alumni have been invited to address students on every second Saturday of the month, in the subject of their expertise or in soft skills. This will help in over-all progress of the students, which is present need, to make students more confident and bold also think in terms of becoming Entrepreneur instead of going for lucrative jobs.

- College has scheme of incubation, which facilitates Industry to have their small workplace within campus, where-in work of the industry keeps on and also provides opportunity to students to have close interaction on doing projects and job opportunity.
- Alumni Association of the College is actively working on providing link of Alumni of all the batches with Institute and it is focusedly working on helping the poor students economically to complete the education and also all alumni are updated on the events of the college. It has been requested all students to become life time members .The registration can be done online logging to www.bvbalumni.in and by online transferring Rs.500.00 to the bank and IFSC code provided in the

website. After registration, an ID and Pwd will be provided to the e-mail ids provided. All alumni can get update on the events in the college and interact with the Alumni Association thru this website.

- Mr Dattatreya Kamath, Mechanical branch & Mr Mallikarjun E&C branch came and joined us the previous day 23.12.2010 at dinner.

- Dinner was attended with families at the Hans Hotel opposite to the college

- We also recollect visit to Adamyia Chetan Trust Kitchen at Hubli, run by Alumni Mrs.Tejashwini Anantkumar. It is an excellent example of Operational excellence in mass production, maintaining good quality, using optimized production and sourcing methods and as well logistics such a way that it reaches distant village schools in time. It is highly appreciable.

BVB 1988 batch E&C/EE reunion on 24th Dec, 2010 at BVB College of Engineering and Technology, Hubli

STUDENT INTERACTION:

This is the auditorium in the college !!!!

Alumni discussions with in ourselves and action plan:

⊗ 3-I Industry-Institute-Interaction

- With varied industry experience and wide variety of cross functional expertise available we as an ALUMINI BATCH can contribute in terms of our expertise by allocating our time and interacting with students and sharing our experiences in Industry and what it takes to become Entrepreneur.
- Dr. Anil Nandi will be our lead contact and make a calendar of events for interaction on every second Saturday time offered by Institute with the college . He will then float the requirements on a common Group page , anyone interested in the batch can opt for a interactive session with students(especially with VI,VII and VIII Semester students).Who-so-ever has agreed on particular month session, need to visit the campus and conduct the session.
- To enable continuous interaction with Institute and Students, we will open a blog spot in Twitter or other common social networking sites sites and publish. As and when required students or Institute post their queries and Alumni having expertise in the particular area can answer these questions. This initiative will be done by Mr. B V Shete and will be co-ordinated by Mr Anil Nandi from Institute and all Alumni will be linked in this so that they participate in this.
- We can visit and interact with Institute and students and can also offer to interact based on the areas of expertise. Anil will be co-coordinator for same.

BVB 1988 batch E&C/EE reunion on 24th Dec, 2010 at BVB College of Engineering and Technology, Hubli

- ⊗ One of the other suggestions was to create 1988 batch fund. We will register a Trust and open a bank account with three members in the Panel (Hubli resident alumni /frequent visitors) to handle the same and this fund can be utilized, as discussed and interacted with Dr B L Desai/ the concerned authority and Alumni Association Secretary Proff Swamy as below :
 - Hiring e-book facility, for books not affordable as print- Specific and Institute need based(Like Amazon Kindles)
 - By contributing to Alumni Association Fund-which sponsors needy-poor academically progressive students, who are forced to stop studies due to lack of fund
 - By sponsoring academically/student need based events
 - Any other innovative ideas Alumni can share and acceptable, which can help in progress of the students/Institute.

- ⊗ We all meet for the next Alumni meet at Bangalore on the same dates next Year i.e 23/24 Dec, 2011 at Bangalore and we should ensure that E&C 45 students and EE 15 students participate in this. It would become a precursor to 1988 batch alumni Silver Jubilee event by 2013 to be held again at the college , within which we should network with 1988 batch all discipline alumni and make it as a mega event.
